Office Action Summary	Application No. 10/594,084	Applicant(s) GEDENK ET AL.	
	Examiner Jason C. Smith	Art Unit 3617	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10 March 2009.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statements (IDS) submitted on 09/25/06, 03/12/07, 03/25/08, and 06/04/08 are being considered by the examiner.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the rigid elements of claims 9, 10, 11, and 18 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New

Art Unit: 3617

Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. **Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Smith et al. (5,611,284) in view of Gedenk (2002/0089102).** Smith et al discloses a railway bogie comprised of a frame and a pair of wheel and axle assemblies fitted with the frame. Each axle 26 is equipped with a pair of spring assemblies 60 and a pair of dampers, mounted to either side of the axle. The spring assemblies are connected to each other by a bridge 68 that extends below the axle 26 and is bolted at either end to the accompanying spring. This arrangement is shown in figure 1 and in more detail in figures 2 and 3. Smith et al discloses the bogie and spring assembly as described above. However, Smith et al does not disclose the use of hydraulic springs mounted with each axle. Gedenk discloses a hydraulic spring assembly comprised of a series of elastomeric pads fitted with a hydraulic reservoir and plunger. It would have been obvious to one of ordinary skill in the art to have applied a hydraulic spring assembly

like that of Gedenk to a bogie assembly, like that of Smith et al, with the expected result of increasing the damping characteristics of the springs, thereby extending the life of the axle, bogie and frame components; [claim 5-6] see paragraph 21 of Gedenk; [claim 7] elastomeric springs (60) of Smith et al.; [claim 8 and 12] see paragraph 0005 of Gedenk; [claims 9-11] see figure 1 of Gedenk; [claim 14] see paragraph 0021; [claim 15] see paragraph 0021; [claims 16-20] see paragraph 0021-0024 and figure 1.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason C. Smith whose telephone number is (571) 270-5225. The examiner can normally be reached on M- F, 7:30 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Morano can be reached on (571) 272-6684. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
